August 3rd 2017 – River Alert

Elbe River is experiencing unusually low water levels and unfortunately rain is not forecasted in the near future

Our nautical department, a team of professionals that monitors all of Viking’s rivers on a daily basis, believes that it is unlikely that your ship, Viking Beyla, will be able to sail and as a result it will be necessary to make changes to your itinerary.

In order to stay as close to the original program as possible we will likely have you embark identical sister ship *Viking Astrild*, then execute a “ship swap” part way through the itinerary, moving you from *Viking Astrild* to *Viking Beyla*. Both ships are currently docked in cities that make it easy to operate daily excursions via motorcoach rides that are relatively short – and we are confident that we will provide you with a great experience.

Considering the impact low water levels have on your trip, we are extending a Future Cruise Voucher valued at \$1,000.00 per person. Future Cruise Vouchers will be emailed to you separately; please allow two weeks for delivery.

Should you wish to cancel your trip or have any questions, please contact Customer Relations at customerrelations@vikingcruises.com or call 1-877-523-0579, Monday through Friday, 6:00 am to 8:00 pm, and Saturday to Sunday, 7:30 am to 4:00 pm, PST.

If the water levels remain at their current capacity we expect that your itinerary will proceed as follows:
